

## Editorial

A Happy New Year! We hope our readers had a wonderful X'mas and new year holiday.

The editorial committee of the Journal Flow Injection Analysis have decided to publish the journal with A4 size, typewritten in a two-column layout, and manuscripts (Reviews, Research Articles, Technical Articles, Topics and Reports) must be submitted in camera-ready form. The rule will be applied to Vol.17, No.1, 2000. We show "Submission Rules", "Instructions for Authors" and "Sample". Our goal is that this journal will be increasingly supported by FIA colleagues around the world and will grow to become a major international journal. We anticipate the submission of numerous manuscripts from many countries.

With kind regards.
